

## 2008 Summer Shootout Drop Rules

Here is how the drop will work for 2008:

We will be dropping your worst finish after round # 7 no matter how many times you have raced. For example; if you only race 5 times, we will drop your worst finish of the 5. Please do not ask if you can drop a race if the race falls within the parameters of non-eligibility. Our chief scorer will take care of what race will be dropped after round # 7 is complete.

- **A race will not be dropped that you were disqualified in.**
- **A race will not be dropped that you were black flagged in for rough driving or flagrant rule violations.**
- **A race will not be dropped that you did not attempt to qualify for. You must attempt to qualify by taking the green flag in your heat race in order to have that race be eligible for the drop. Therefore, “no-shows” do not count for the drop.**
- **On the point standings, if your finish is highlighted in red, that race will not be eligible for the drop.**
